

Fire Science Technology

(version April 2019)

Fire Science Technology, AS Program: AS-25980

The Fire Science Technology Program is designed to allow fire service or fire protection professionals to enhance their technical competencies and prepare for career advancement. The program emphasizes the scientific basis of fire hazards and the control of these hazards, effective operating procedures at fires and other emergencies, and preparation of students for leadership and managerial positions.

Certain courses in this program require placement at the college level or satisfaction of developmental education requirements in reading, writing, and math.

Note: *If a student is not currently a Florida State Certified Firefighter and would like to become one, he or she must earn the State of Florida Firefighter I and II Certification (called “Certificate of Compliance” or Minimum Fire Standards). This certification must be attained through a state certified fire academy such as the one at Ridge Technical College (Ridge Fire Academy), 7700 State Road 544, Winter Haven, FL 33881; Telephone: (863) 419-3060. Ridge Technical College is a separate program from the Polk State Fire Science Technology Program.*

It is strongly recommended (but not required) that students attain the State of Florida Firefighter I and II Certification prior to pursuing the Fire Officer Certifications that are part of the articulated credit requirements for this Fire Science Technology, AS Degree.

Firefighters who hold out-of-state, national, or military certifications or fire courses must contact the Florida Bureau of Fire Standards and Training to ask for an equivalency review to determine what is needed to satisfy or convert these certifications to Florida certifications. For more information, students should contact the Bureau of Fire Standards and Training, 11655 NW Gainesville Rd, Ocala, FL 34482-1486; telephone: (352) 369-2800.

General Education (18 credits) + Fire Core Requirements (42 credits) = AS Degree (60 Credits)

GENERAL EDUCATION REQUIREMENTS (18 CREDITS REQUIRED)

18 Credits for General Education Requirements have not changed!

COMMUNICATIONS

- **ENC 1101 - College Composition I**

MATHEMATICS (ONE COURSE)

- **MAC 1105 - College Algebra**
- **MGF 1106 - Topics in Mathematics**
- **MGF 1107 - Explorations in Mathematics**

HUMANITIES (ONE COURSE)

- **HUM 2020 - Introduction to Humanities**
- **PHI 2600 - Ethics**

SOCIAL SCIENCES (ONE COURSE)

- **PSY 2012 - General Psychology**
- **SYG 2000 - Introduction to Sociology**

NATURAL SCIENCES (ONE COURSE)

- **BSC 1005C - Survey of Biological Science**
- **BSC 1033 - Biological Issues**
- **ESC 1000 - Survey of Earth Science**
- **OCE 2001C - Oceanography**
- **PSC 1121 - Survey of Physical Science**
- **PSC 2515 - Energy and Humanity**
- **CHM 1025C - Introductory Chemistry**
- Or any approved general education science course

HEALTH (ONE COURSE)

- **HLP 1081 - Wellness Concepts**
- **HSC 1101 - Wellness: Nutrition, Personal Growth, and Fitness**
- **Note:** *Students who take a three-credit science class must take HSC 1101. Students who take a four-credit science class can choose either HLP 1081 or HSC 1101.*

PROGRAM CORE REQUIREMENTS (42 CREDITS REQUIRED)

Choose One:

- **ENC 2210 - Introduction to Technical and Professional Writing**
- OR
- **GEB 2214 – Business Communications (option added in 2014)**

Choose One:

- **CGS 1061 - Introduction to Computers and Information Systems**
- OR
- **CGS 1100 – Computer Applications for Business (option added in 2014)**

ARTICULATED CREDITS FROM APPROVED FLORIDA BUREAU OF FIRE STANDARDS AND TRAINING CERTIFICATIONS (36 CREDITS REQUIRED)

Students must earn 36 credits for the program core. A minimum of 24 of these credits must come from fire certifications. All FFP courses must be validated by earning a certification.

(On November 18, 2013, the Florida Bureau of Fire Standards and Training changed the course requirements for the Fire Officer Certifications. As a result of these changes, students will select a program from Chart A or B depending on the date they earned their Fire Officer I certification.)

Students select a program of study from the appropriate chart:

Chart A:

- For students who earned the Fire Officer I Certification after November 18, 2013.

Chart B:

- For students who earned the Fire Officer I Certification prior to November 18, 2013.

Chart A Select ONE Fire Officer I Certification earned <u>after</u> 11-18-2013				
Options	Title of Fire Study Option	Certification Requirements <i>Fire Officer = FO credits awarded = (credit hours)</i>	Credits from Certifications (Range: 24-36)	Additional Credits Needed**
Option I	Fire Supervisor / Fire Safety	FOI (12), FOII (12), Inspector I*(6) & Investigator I (6)	36	0
Option II	Fire Supervisor / Manager	FOI (12) & FOII (12)	24	12
Option III	Fire Supervisor / Inspector	FOI (12), FOII (12), & Inspector I (6)	30	6
Option IV	Fire Supervisor / Investigator	FOI (12), FOII (12), & Investigator I (6)	30	6
Option V	Fire Safety***	Investigator I (12), Inspector I (9), & Inspector II (6)	27	9

* A reduced number of credits is awarded because the duplicate FFP courses between Investigator I/Inspector I and Fire Officer I/II can only be counted once.

** The students can earn these remaining credits of the 36 required by selecting courses from the list of electives.

***This option is for students who do not hold the Firefighter I Certification. This option is intended for risk managers, safety personnel, fire marshal personnel, insurance investigators, fire engineers, etc.

Chart B Select ONE Fire Officer I Certification earned prior to 11-18-2013				
Eight Variations	Title of Fire Study Option (No titles given)	Certification requirements <i>Fire Officer = FO credits awarded (credit hours)</i>	Credits (Range: 24-36).	Additional Credits Needed**
1	NA	FOI (24), Inspector I*(6), & Investigator I*(6)	36	0
2		FOI (24) credits	24	12
3		FOI (24) & FOII*(new) (3)	27	9
4		FOI (24) & FOII (old) (12)	36	0
5		FOI (24) & Inspector I* (6)	30	6
6		FOI (24) & Investigator I* (6)	30	6
7*		FOI (24), FOII* (New) (3), & Investigator I* (6)	33	3
8*		FOI (24), FOII* (New) (3), & Inspector I* (6)	33	3

* A reduced number of credits are awarded because the duplicate FFP courses between Investigator I/Inspector I and Fire Officer I/II can only be counted once.

** Students can earn these remaining credits of the 36 required by selecting courses from the list of electives.

ELECTIVE COURSES		
Up to 12 credits of the 42 program credits can come from the following:		
POS 1112	State and Local Government	3 credits
INP 1390	Human Relations in Business and Industry	3 credits
MAN 2021	Principles of Management	3 credits
MAN 2300	Introduction to Human Resources	3 credits
STA 2023	Introduction to Probability and Statistics	3 credits
SPC 1608	Speech Communications	3 credits
FFP 1000	Introduction to Fire Science The Florida Firefighter “Minimum Standards Course” or Firefighter II certification. <i>This is a Florida State statutory requirement to be employed as a Firefighter in the State.</i> Legally named: “Certificate of Compliance” *	3 credits
	Drones (proposed elective – pending – 8-2018)	3 credits

(*Option added in 2016)

TOTAL PROGRAM HOURS: 60

NOTE: See the subsequent pages for individual fire courses (FFP) and how they apply to each certification.

Note: Articulated Credits from Approved Florida Bureau of Fire Standards and Training Certifications (36 Credits Required).

The articulated Fire Fighting and Protection (FFP) credits from certifications can only be used toward the Associate of Science in Fire Science degree; however, an AS in Fire Science degree containing Fire Fighting and Protection credits can be applied toward Public Administration Bachelor’s Degree. A minimum of 24 of these credits must come from fire certifications.

Credits all fire courses must be validated by earning State Certifications (example: Fire Officer I, Fire Officer II, Fire Safety Inspector I, Fire Safety Inspector II, or Fire Investigator I) through the Pearson VUE testing.

Fire classes are only articulated into FFP courses at Polk State by attaining Florida Bureau of Fire Standards and Training State Certifications as described. Therefore, no individual courses are accepted by transcript or other methods. This articulation of credits is at no cost to the student.

Polk State College does not provide direct instruction for any FFP courses. These fire courses can be taken from a variety of sources including Ridge Technical College in Winter Haven (7700 State Road 544, Winter Haven, FL 33881; phone: (863) 419-3060).

As stated, if a student is not currently a Florida State Certified Firefighter and would like to become one, he or she must earn State of Florida Firefighter I and II certifications (Certificate of Compliance) through a state certified fire academy such as the one at Ridge Technical College (Ridge Fire Academy), 863-419-3060.

As of November 18, 2013, it became mandated that students attain State of Florida Firefighter I and II certifications ("Certificate of Compliance") prior to pursuing the Fire Officer certifications that are part of the articulated credit requirement for this degree. However, Chart A, Option V (Fire Safety) is designed for students who do not hold the Firefighter I Certification. This option is intended for risk managers, safety personnel, fire marshal personnel, insurance investigators, fire engineers, etc.

Note: As of Winter 2016

Florida Bureau of Fire Standards and Training has incorporated three course prefixes that will apply to any fire course taught after the date implemented (winter, 2016). The course title, curriculum, and four digit numbering will remain the same.

FFP: Colleges and eligible institutions as outlined in the State Course Numbering System rule, accredited institutions.
BFST: Florida Bureau of Fire Standards and Training (Fire College).
ATCP: Other providers.

Currently, the above three prefixes (FFP, BFST, and ATPC), could be assigned to a state recognized fire course. The prefix signifies where they were offered. All three prefixes will equally apply towards a corresponding State Fire Certificate. As noted above, the course title, curriculum, and four digit numbering will remain the same.

Note of clarification:

The future implications for these three classifications might determine the articulation or transfer of credits towards certain Fire Science Degrees. The FFP course prefix will likely become the "golden standard" for fire courses (the BFST prefix will likely be the second prefix accepted by many institutions). However, currently there is no distinction in applying towards their corresponding State Fire Certification, such as those accepted by Polk State College. But some fire science degree programs in the state have a warning concerning fire courses taught from non-accredited institutions and as a result, encouraged the DOE and the Florida Bureau of Fire Standards and Training to develop these three prefix designations.

The following charts define the individual courses found in each of the certifications:

Appendix A
Courses Awarded for Each Option in the Fire Science Degree

Chart A for Students Who Earned Fire Officer I after November 18, 2013

****As of winter 2016, there are currently three recognized prefixes (FFP, BFST, and ATPC), that could be assigned to a fire course. Each prefix applies equally towards a corresponding State Fire Certificate.**

Option I Fire Supervisor / Fire Safety				
Fire Officer I (post 11-18-2013)	FFP 2720	Company Officer	3	
	FFP 2120	Fire Service Building Construction	3

Commitment to Equal Opportunity/Equity and Access

Polk State College is an equal access/equal opportunity institution committed to excellence through diversity in education and employment. The College complies with all state and federal laws granting rights to students, employees, and applicants for employment or admission to the College.

Polk State College does not discriminate on the basis of race, color, national origin, ethnicity, sex, age, religion, sexual orientation, marital status, veteran status, genetic information, disability, or pregnancy in its programs, activities, or employment.

In guidance with our [Strategic Plan](#) ensuring student success, the College recognizes its commitment to ensure that current and future students are not discriminated against and its obligation to ensure a bias free educational environment. Specific procedures for filing a complaint and resolving academic disputes are provided in [Rule 4.26 Student Appeal/Complaint Policy](#).

In addition, the College has appointed an [Ombudsman](#) on each campus to provide students with an opportunity to have an off-the-record discussion about student concerns. The role and responsibility of the [Ombudsman](#) does not replace the formal procedure process for filing any type of complaint.

The College provides equal educational opportunities for qualified individuals with disabilities and complies with and supports the [Americans with Disabilities Act](#).

Polk State College is committed to equal access/equal opportunity in its programs, activities, and employment. For additional information, visit polk.edu/equity.

Polk State College se compromete a la igualdad de acceso/igualdad de oportunidades en sus programas, actividades, y empleo. Para más información, visite polk.edu/equity.
