Explore the vibrant culture and dynamic business landscape of Morocco. This 13-day journey will take you across the heart of Morocco, from Casablanca's Atlantic coast to the sands of the Sahara. Begin in Casablanca at the stunning Hassan II Mosque before traveling to Rabat for an insider's look at Morocco's capital with local business students. Wander the blue streets of Chefchaouen and learn traditional crafts from local artisans. In Fes, explore the world's oldest walled medina and visit a women's cooperative in the Rif Mountains. Journey into the Sahara for a camel trek and overnight in a Bedouin desert camp, complete with music and storytelling under the stars. The program concludes in Marrakech, where you'll explore the famous Jemaa El Fna square, tour historic palaces, and engage with university faculty and local entrepreneurs. Beyond cultural experiences, this program is designed to connect you with Morocco's living economy—meeting artisans, visiting cooperatives, and attending lectures that bring academic learning into real-world contexts.
