From Panashe:

My name is Panashe Chataika. I am a girl. I completed my grade seven last year, 2015. I have not been able to proceed to secondary education due to failure to raise the required school fees. Thanks to Yuda Bands, I will be able to join my age mates and start my secondary education. My

parents separated and my father walked away from us and he does not contribute anything for our upkeep. My mother is unemployed and she cannot raise enough money for my secondary education and rentals. We are a family of three children and I am the eldest. My hobbies are playing netball and reading novels. When I grow up I want to be a medical doctor.
