# International Organization for Standardization Certification Training

## ISO 45001:2018 Occupational Health and Safety Management Systems

### Two Days

**Day 1:** Overview of ISO 45001:2108 Certification and Quality Management Systems (QMS)

**Day 2:** Internal Audits, Key Performance Indicators (KPIs), and Management Reviews

**Session Description:** This training focuses on the structure, processes, and corresponding documentation necessary to meet requirements for ISO 45001:2018 Certification. The course reviews the certification requirements and their application to a company or organization for the development of an Occupational Health and Safety Program. Each participant who completes the course receives training in the following:

- A. The precise requirements for ISO 45001:2018 Certification
- B. Application of the ISO 45001:2018 Certification Requirements to an organization
- C. Structure and development of the necessary documentation
- D. Methods to communicate with employees and engage the entire organization in the certification process
- E. Processes for determining the right Occupational Health and Safety objectives for the management system
- F. Performance of internal audits
- G. Processes for document management reviews
- H. Preparation for a certification audit
- I. Continuous improvement processes for an Occupational Health and Safety Management System
