

Lakeland Campus Faculty Senate Vice-President's Report

November 10, 2014

(This report is for information purposes only. These items are not intended for Faculty Senate action.)

Consortium Dashboard (college-wide) – The consortium of colleges that we are a member of has created a Consortium Dashboard. It offers a selection of reports and graphs that are created from our college's current data. The three main areas are enrollment, integrated financials, and student success. Within student success are grades and grade distribution. Retention will be included in the next release of the software which is scheduled for the end of November.
