Non-compliance with any of the terms and conditions of this Contract shall constitute a material breach of Contract.

Section 2: Academic Accountability

A) Student Performance: Assessment and Evaluation

The School will establish the current incoming baseline student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. Section 2 (2) of this Contract includes a detailed description of how the baseline student academic achievement levels and rates of academic progress will be established, how these baseline rates will be compared to rates of academic progress achieved by these same students while attending the Charter School, and how these rates of progress will be addressed if found to be deficient when compared to the rates of progress of other closely comparable student populations as delineated in the Sponsor's annual review of Charter Schools.

The School will employ appropriate instruments, with documented validity and reliability that will be used to measure and monitor growth of students, and collaborate as appropriate with outside professionals to develop and select these alternative evaluative instruments.

1) Initial Year: During the first year of the Contract, the School agrees to implement the current baseline standard of achievement, the outcomes to be achieved, and the methods of measurement that have been mutually agreed upon and identified in the School's application.

a) Expected Outcomes: For new charter schools, the baseline educational goals and objectives for improving student achievement, including how much academic improvement students are expected to show each year, how student progress and performance will be evaluated and the specific results to be attained, as described in Section 5a of the School's charter application, section titled Student Performance, Assessment and Evaluation.

b) Methods of Measurement: The methods used to identify the educational strengths and needs of students and the educational goals and performance standards are set forth in the School's approved application and/or the School Improvement Plan. This accountability criterion shall be based upon the assessment systems of the School, the Sponsor and the State.

c) Assessments

1) State required assessments: All students at the School will participate in all State assessment programs [pursuant to statute and State Board of Education rule]

2) Additional Assessments: Students may participate in all district assessment programs in which the district students in comparable grades/schools participate. The School will be responsible for the cost of all additional assessments.

3) All School personnel involved with any aspect of the testing process must attend the Sponsor's test administration testing and have knowledge of and abide by State (and, if applicable, Sponsor's) policies, procedures, and standards regarding test administration, test security, test audits, and reporting of test results.

2) Annual

a) The School shall implement the current baseline standard of achievement, the outcomes to be achieved, and the methods of measurement identified in the documents previously submitted to the Sponsor and incorporated herein. When determining the baseline standard of achievement for students, the School shall develop, maintain, monitor, track, and include the following:

1) How the baseline student academic achievement levels and prior rates of academic progress will be established.

2) How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the School.

3) To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

4) Sponsor is required to provide academic student performance data to the School for each of its students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system if feasible.

b) School Improvement Plan: The School will develop a School Improvement Plan (SIP) during the first year of the Contract and each year thereafter in accordance with and as outlined in the School Improvement Plan Guidelines adopted by the Sponsor and attached here in **Appendix 4** by the due date established by the State and/or Sponsor. The School Improvement Plan shall contain the School's measurable objectives for the subsequent school year. The source documentation for data must be clearly identified and, where applicable, rely on state generated disaggregated data published on the FLDOE website.

1) Minimum Components of SIP: The School shall complete a School Improvement Plan as outlined in the SIP Guidelines adopted by the Sponsor in **Appendix 4** for each subsequent year and at renewal. Expected outcomes at a minimum must include appropriate goals as addressed within the SIP template.

2) Deadline for Governing Board approval: The governing board of the School shall review and approve the SIP prior to the date of submission required by the State. Minutes documenting SIP approval must be taken and posted. The School shall follow the timeline set forth by the Sponsor for completion and approval of the School Improvement Plan annually.

3) Monitoring: The School agrees to the baseline standard of achievement, the outcomes to be achieved, and the methods of measurement that have been mutually agreed upon in the SIP submitted to the Sponsor annually. The School's governing board shall monitor the implementation of the SIP. Schools which fall under the State of Florida Differentiated Accountability Plan will comply with all requirements as they relate to the SIP. This Contract may be terminated by the Sponsor if insufficient progress has been made towards the goals and outcomes designated in the School Improvement Plan or the School receives a state designated grade of "F" in two of any four years. In addition to evaluating the School's success in achieving the objectives stated in either the application or the SIP, the School will be held accountable for meeting the State's student performance requirements as delineated in State Board of Education Administrative Rule 6A-1.09981, *Implementation of Florida's System of School Improvement and Accountability*. Specific Authority for this is found in §1001.02, §1008.33, and §1008.345, Florida Statute.

c) Corrective Action (Differentiated Accountability)

1) If a charter school earns three consecutive grades of "D," two consecutive grades of "D" followed by a grade of "F," or two nonconsecutive grades of "F" within a 3-year period, the charter school governing board shall fulfill the corrective action requirements pursuant to Florida Statutes 1002.33 (9)(n).

d) Assessments

1) State required assessments: All students at the School will participate in all State assessment programs [pursuant to statute and State Board of Education rule]. The School shall ensure that the School will meet the requirements for computer-based testing of students.

2) Additional Assessments: Students may participate in all district assessment programs in which the district students in comparable grades/schools participate. The School shall be responsible for all costs associated with assessments not mandated by the state or covered by federal funding, such as Title I and IDEA.

3) If an IEP for a student with disabilities or student of gifted indicates accommodations or an alternate assessment, for participation in a State assessment, the School will facilitate the accommodations or alternate assessment and comply with State reporting procedures.

4) All School personnel involved with any aspect of the testing process must have knowledge of and abide by State (and, if applicable, Sponsor's) policies, procedures, and standards regarding test administration, test security, test audits, and reporting of test results. School personnel must attend Sponsor's training on test administrations in accordance with State and Sponsor policies, procedures, manuals, and other guidance documents.

B) Student Promotion

1) School student promotion policy: The School will adopt the Sponsor's "Student Progression Plan" (SPP), which is attached as **Appendix 5**, with the exceptions attached in **Appendix 5**, or the School may develop its own SPP in accordance with applicable Florida State Statutes. This plan must be submitted to the Sponsor's Curriculum Committee for review prior to the first working day in June of the opening year and no later than sixty (60) days following Sponsor's approval of its SPP. The School must be aware of what is in Sponsor's SPP and the School must write exceptions for Sponsor's review. The SPP is a document that is revised yearly; therefore the School agrees to implement the SPP for the current operational year. Notwithstanding the above acceptance of the Sponsor's SPP, the School and the Sponsor may agree to any additional reasonable exemptions from the SPP the School may wish. Any failure to agree on exemptions shall not be considered a dispute.

2) The School agrees to maintain applicable certification/accreditation through a district-approved regional accrediting agency for its educational program in order to ensure transferability of courses completed by the students at the School. Secondary schools shall notify parents and students of the School's accreditation status and the implication on non-accreditation in the application, the parent/student handbook, and the student contract.

3) Graduation Requirements: If offering courses with high school credit, the School shall follow the graduation requirements outlined in the Sponsor's Student Progression Plan.

4) Other Assessment tools as stated in approved Application as well as the School Improvement Plan as attached in **Appendix 4** and/or other approved contract modifications.

C) Data Access and Use Pursuant to Statute

1) The School agrees to use data provided through its participation with the Sponsor in electronic data processing systems pertaining to admissions, registration, and student records.

2) The School agrees to allow the Sponsor reasonable access to its facilities and records to review data sources, including collection and recording procedures, in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met as stated in the Contract, and required by §1002.33(23), Florida Statute.

3) Sponsor is required to provide to the State Board of Education and the Commissioner of Education an analysis and comparison of the overall performance of the School's students. The parties agree that the Sponsor will use results from the State required assessment programs referenced in this Contract (and any of Sponsor's assessment programs in which the School elects to participate) in a disaggregated format and the data elements to be included in the annual report which the School is required to submit pursuant to §1002.33(23), Florida Statute.

4) The Sponsor shall ensure that the School's program is consistent with the state education goals established by §1000.03(5), Florida Statute.

5) In secondary charter schools, the School will establish a method for determining that a student has satisfied the requirements for graduation in §1003.43, Florida Statute.

6) The School will use records and grade procedures that adequately provide the information required by the Sponsor. This may be an alternative grading and recording system. The School's grading and recording system must be in accordance with the State's reporting guidelines.

7) The School shall follow the Polk County Public Schools Authorized Courses for Secondary Schools as appropriate.

8) The School will securely maintain both active and archival records for current and former students in accordance with Florida Statutes.

Section 3: Students

A) Eligible Students

The parties agree that the School shall be open to any student residing in Polk County and any student who is covered by an interdistrict agreement. The parties agree that the primary community to be served by this Charter School is to be Lakeland as per the Charter application.

B) Grades Served

This School will serve students in grades eleven (11) through twelve (12) ages 16 through 21.

C) Class Size

The School is subject to the limitations on maximum class size set forth in Article IX, section 1 of the Florida Constitution and s. 1003.03, Florida Statutes, and will implement all appropriate measures to comply with that law, as interpreted by the Florida State Department of Education. Because the School's failure to comply with class size rules will adversely impact the Sponsor's compliance with state law and its ability to educate students as mandated by the citizens of the State of Florida, the School's failure to comply with class size rules and laws will constitute good cause for immediate termination of this Contract.

D) Annual Projected Enrollment

1) The capacity of the school shall be determined annually by the School, in conjunction with the Sponsor, in consideration of the factors identified in section 1002.33(10), Florida Statutes. The School shall notify the Sponsor no later than the last working day in November of its proposed enrollment. Any changes to the projected enrollment as agreed upon during the November enrollment projections shall require a contract modification. Enrolling students beyond this projected enrollment shall result in the forfeiture of FTE for those students. Following is the student enrollment projection breakdown for year one (1): 2013-2014 – Grades eleven (11) through twelve (12) up to 100 students.

2) High Performing Charter School: A high-performing charter school shall notify the Sponsor in writing by March 1 of the preceding school year if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable. Pursuant to 1002.331 Florida Statutes, A high performing charter school is authorized to:

- a) Increase its student enrollment once per school year by up to 15 percent more than the capacity identified in the charter
- b) Expand grade levels within kindergarten through grade 12 to add grade levels not already served if any annual enrollment increase resulting from grade level expansion is within the limit established in paragraph (a) above.

E) Annual Capacity Determination

The student enrollment capacity will be contingent on the student capacity as stated on the valid certificate of occupancy for the school facility in whose jurisdiction the facility is located and at no time shall the School's enrollment exceed the maximum capacity established by the School site's certified occupancy.

F) Admissions and Enrollment Plan

1) The School will be responsible for its enrollment process. The School shall comply with all applicable terms and conditions of those desegregation court orders and settlement stipulations and conditions to which Sponsor is subject. Based on such orders and settlements, the School shall comply with the following provisions.

(a) The School will maintain an enrollment and waiting list as per Florida Statute 1002.33, section 10.

(b) Acceptances to the School must reflect the diversity of the community in which the School is located as detailed in the Enrollment Plan attached hereto as **Appendix 6**.

2) The School agrees to enroll any eligible student who submits a timely and completed application. However, if the number of applications exceeds the capacity of a program, class, grade level, or building all eligible applicants shall have an equal chance of being admitted through a random selection process that complies with Florida law and all applicable desegregation court orders, and/or settlement stipulations and conditions relating to maintenance of appropriate student population that reflects the diversity of the community in which the School is located.

3) The School may give enrollment preference to eligible siblings of students enrolled in the School, to the child of an employee of the School, to the child of a member of the governing board of the School or to any other student as authorized by Florida law. Preference may also be given to students living in the same household with an accepted/attending student (i.e., foster home, foreign exchange student) with appropriate documentation.

4) The School shall submit an Enrollment Plan that addresses the process for acceptance of applications and enrollment of students, including but not limited to maintaining a student population that reflects the diversity of the community in which the school is located and enrollment preferences, as approved by the School's governing board and agreed to by the Sponsor as attached hereto as **Appendix 6**, as well as all desegregation requirements to which the Sponsor is subject.

5) In the event that the School's student enrollment does not comply with these provisions as required by any applicable desegregation court orders, plans, and/or settlement agreements adopted pursuant thereto, the School shall immediately notify the Sponsor of the noncompliance and develop a plan to bring the School into compliance. The School shall have sixty (60) days from the date of noncompliance to address and cure the failure to maintain a student population that reflects the diversity of the community in which the School is located.

If after sixty (60) days the School fails to maintain this diversity required by desegregation court orders and settlement stipulations, as provided above, then this Contract may be terminated at the discretion of the Sponsor pursuant to Section 1 (D) above. If during the termination process, the School achieves the appropriate student population that reflects the diversity of the community in which the School is located, then the termination process will cease. The Sponsor may initiate termination proceedings only after expiration of the 60-day cure period. The Sponsor agrees to provide the specific court orders, plans and/or settlement agreements adopted pursuant thereto regarding the specific racial balances as they pertain to the School.

6) The School's parents/guardians will contractually agree to be responsible for their children's attendance (per applicable rules and regulations), classroom participation, and behavior as outlined in the School's Parental Contract as attached hereto as **Appendix 7**.

7) All conflicts between the School and the parents/legal guardians of the students enrolled at the School shall be handled by the School or its governing board. Evidence of each parent's/guardian's acknowledgement of the School's Parent Conflict Resolution Process shall be available for review upon request by the Sponsor.

G) Maintenance of Student Records as Required by Statute

1) The School must maintain both active and archival records for current/former students in accordance with §1003.25 and §1002.22, Florida Statutes, and Rule 6A-1.0955, Florida Administrative Code. The School must transmit to the Sponsor or designee prior to July 1 of each year a listing of the types of Category A and B educational records pursuant to Rule 6A-1.0955, Florida Administrative Code. All other records shall be kept in accordance with the Department of State's records retention schedule(s), Chapter 1B-24 Florida Administrative Code.

2) The School must transmit, upon official request of a receiving school, all permanent cumulative records (both Category A, Permanent Information and Category B, Temporary Information) of students leaving the School, whether by transfer to a traditional public school within the school system, or withdrawal to attend another school. The School shall maintain proof of transfer. The School must retain copies of the departing student's academic records created during the student's attendance at the School.

3) The School must deliver within five (5) business days to the Sponsor or designee all permanent cumulative records (both Category A, Permanent Information and Category B, Temporary Information) of students leaving the School, but not transferring to a Polk County public school or a charter school sponsored by The School Board of Polk County, Florida, upon termination of a student's enrollment at the School. 1) Non-discriminatory Policy: The School shall prohibit any and all forms of discrimination and harassment based on race, color, sex, religion, national origin, marital status, age, homelessness, or disability or other basis.

2) Sponsor's responsibilities: The Sponsor will have the responsibility of conducting the evaluation of students referred for potential placement within exceptional student education in accordance with federal and state mandates, except if a School or System has been designated its own LEA for the purposes of Federal Funding. The School agrees that the Sponsor will perform all evaluations of students initially referred for placement within exceptional student education, except if a School or System has been designated its own LEA for purposes of Federal Funding. The School will be responsible for all reevaluations. The School may obtain independent evaluations of students at their expense. Students of gifted shall be provided with programs implemented in accordance with state and local policies and procedures, Florida Statute, and Chapter 6A-6 of the State Board of Education Administrative Rule. The School will be responsible for the delivery of all educational services indicated on the student's educational plan.

4) If it is determined by an IEP committee that the needs of a student with disabilities cannot be met at the School, the Sponsor and School will take steps to secure another placement for the student in accordance with federal and state mandates. The Sponsor may provide a Staffing Specialist to serve as the Local Education Agency (LEA), except if a School or System has been designated its own LEA for purposes of Federal Funding, when the IEP meeting is considering an initial placement, a change in placement, a dismissal from a program or a change in personnel assignments or reassignments.

5) The Sponsor may participate in all IEP meetings (including initial staffing and annual IEP review meetings) at the School and may serve as the Local Educational Agency (LEA) Representative when attending. The Sponsor will be responsible for the review of the Matrix of

Services form following the completion or revision of an IEP. The Sponsor will make final determinations of the Matrix of Services scores.

6) Students with disabilities will be educated in the least restrictive environment as outlined in **Appendix 8**, Exceptional Student Education Policies and Procedures (SP&P). Those students, whose needs cannot be adequately addressed at the School as determined by an IEP committee, will be appropriately referred; and the School staff will work together with the Sponsor's personnel to ensure that the needs of these students are met. The School's staff will work closely, and as early as possible in the planning/development stages, with Sponsor staff to discuss the services needed by the School's students with disabilities.

7) Services covered by the five percent (5%) administrative fee: The Sponsor shall provide those services that are required to be performed at the district office as part of the central office administration processes for ESE Services. Services provided by the Sponsor are outlined in **Appendix 12**, the Sponsor's Charter School Administrative Services guide as updated from time to time.

8) Due Process Hearing: In the event there is a Due Process Hearing in accordance with Section 615 of the Individuals with Disabilities Education Improvement Act involving the provision of education and related services to a student with disabilities at the School, the School shall bear all the costs of the hearing, including legal representation. In the event that the party representing the parents or guardians is prevailing, any and all attorneys' fees awarded to prevailing party will be paid by the School.

I) English Speakers of Other Languages

The School shall attend the Sponsor's ESOL Procedures Training each year and shall complete the ESOL Information Sheet and submit to the Sponsor. The Sponsor's or School's state approved plan, which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree, is attached as part of **Appendix 2**.

J) Dismissal Policies and Procedures

1) The School may not withdraw or transfer a student involuntarily, unless the withdrawal or transfer is accomplished through established administrative procedures mutually

agreed upon in this Contract, or through existing administrative procedures in the Sponsor's Board Rules and/or Policies.

2) The School agrees to maintain a safe learning environment at all times. In order to provide criteria for addressing discipline issues that will ensure the health, safety and welfare of all students attending the School, the School will adopt and follow the Sponsor's Code of Student Conduct with exceptions or as later modified which is attached as **Appendix 9** until such time as the School develops and receives Sponsor's approval of its own Code of Conduct.

3) Students who attend the PSC Lakeland Pathways Charter High School and their parents/guardians may enter into contracts with the School. Such contracts will detail the responsibilities staff members, students, and parents/guardians are expected to fulfill. If students do not meet these obligations, as a documented last resort, it may be recommended that the student attend another school. For compliance with student discipline procedures for students with disabilities and students of gifted refer to Sponsor's Exceptional Student Education SP&P document, which is attached as **Appendix 8**.

4) Notwithstanding the above acceptance of the Sponsor's Code of Student Conduct, the School and the Sponsor may agree to other reasonable exemptions from the Code. Any failure to agree on exemptions shall not be considered a dispute.

deemed necessary by the Sponsor. These site visits will monitor school operations and student performances and the School shall provide responses in a timely manner or within thirty days of receipt of said requests.

Section 4: Financial Accountability

A) Revenue

1) Basis for funding as provided in statute [Section 1002.33(17)(b)]: Pursuant to section 1002.33(17), Florida Statutes, students enrolled in the School shall be funded as if they are in a basic program or a special program the same as students enrolled in other public schools in the School District. The basis of the funding shall be the sum of the Sponsor's operating funds from the Florida Education Finance Program (FEFP) as provided in Section 1011.62, Florida Statutes, and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from the Sponsor's current operating discretionary millage levy; divided by the total funded weighted full-time equivalent students (WFTE) in the Sponsor's district; multiplied by the WFTE of the School.

If the School's students or programs meet the legal eligibility criteria, the School shall be entitled to its proportionate share of categorical program funds included in the total available FEFP funds by the legislature, including transportation.

a) Student Reporting: The School shall report its student enrollment to the Sponsor as required in Section 1011.62, Florida Statutes, and in accordance with the definitions in Section 1011.61, Florida Statutes, at the agreed upon intervals and shall use the reporting method required by the Florida Department of Education (if any) and the Florida Auditor General (if any) when reporting cost data by program. The Sponsor shall include the School's enrollment in the Sponsor's district report of student enrollment.

1) In order to facilitate the School's reporting requirements as reflected in the law and in order to provide continuous data for students participating in the School, the parties agree that the School will use the Sponsor's electronic data processing facility and procedures for the processing of student enrollment, attendance, FTE collection, and assessment information. The Sponsor will analyze the School's facility and develop a hardware/software solution which provides the School with limited access to the Sponsor's data processing facility. The School will provide hardware and related infrastructure. There will be no cost to the School for the related installation of software programs.

2) The Sponsor will also provide training for the School's personnel in the use of designated district applications necessary to respond to the requirements of §1008.345, Florida Statute, including the state/district required assessment program. The

Sponsor's support for this function will be provided at cost and will not exceed the administrative fee provided in the law. Access by the School to additional data processing applications not required by law but available through the Sponsor may be negotiated separately by the parties.

3) If the School submits data relevant to FTE funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State for any errors or omissions for which the School is responsible.

4) Access by the School to materials and forms not required by law but available through the Sponsor may be negotiated separately by the parties.

b) Distribution of Funds Schedule: The Sponsor shall make certain that the School receives timely distribution of all funding for which School is eligible. Payment will be broken into eleven (11) monthly payments with no payment in June. Each payment shall be issued no later than ten (10) working days after Sponsor receives a distribution of state or federal funds. All payments shall be made to the School no later than the 15th of each month from July through May. See **Appendix 10** for a sample worksheet for calculating the School's revenues. The Sponsor shall complete this worksheet the month following the actual FTE survey periods. An invoice will be prepared by the Sponsor based upon the original revenue worksheet divided by the number of payments (eleven) in the school year until a revised worksheet schedule is completed. The first payment of every subsequent year shall be adjusted by any final amounts due to or from the Sponsor for services provided the School during the previous year as well as for administrative oversight. If a warrant for payment of a scheduled disbursement is not issued within thirty (30) working days after the receipt of funding by the Sponsor, the Sponsor shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the thirty (30) day period until such time as the warrant is issued.

c) Adjustments: Should the School receive notice of a negative funding adjustment which is attributable to non-compliance by a school other than this Charter School, then the School will not be assessed any penalty. Total funding for the School shall be recalculated during the year to reflect the revised calculations under the FEFP by the state and the actual WFTE students reported by the School during the full-time equivalent survey periods designated by the Commissioner of Education. Total funding shall be recalculated during the school year to reflect actual WFTE students reported by the School during the FTE student survey periods. Funding for the School shall be adjusted during the year to reflect the revised calculations.

d) Millage levy: In accordance with the provisions of Fla. Stat. 1002.33(9)(1), the School agrees that it shall not levy taxes or issue bonds secured by tax revenues.

e) Holdback/Proration: Additionally, funding for the School shall be adjusted during the year as follows:

1) In the event of a state holdback or a proration, which reduces or increases district funding, the School's funding will be reduced or increased proportionately. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a state holdback.

2) In the event that the district exceeds the state cap for WFTE for Group 2 programs established by the Legislature, resulting in unfunded WFTE for the district, then the School's funding shall be reduced to reflect its proportional share of any unfunded WFTE.

f) FTE: The School must provide the Sponsor with the following year's projected FTE by April 15 of the current year. The Sponsor may initially calculate monthly distributions to the School until the results of the October FTE become available.

2) Federal Funding: Any eligible student enrolled in the School shall be provided federal funds for the same level of service provided other eligible students in the schools operated by the Sponsor, including Title I funding, except if a School or System has been designated its own LEA for Federal Funding purposes. With regard to any program or service provided by the Sponsor which is funded by federal funds that follow an eligible student, the Sponsor agrees that if the same program or service is provided to an eligible student at the same level of service by the School, then upon receipt of adequate documentation from the School, the Sponsor shall transfer to the School the federal funds received by the Sponsor attributable to that student on an equitable basis. If applicable laws and regulations do not permit the direct transfer of funds to the School, the Sponsor will provide such goods and services as are the subject of the funding in question on an equitable basis. The transfer of funds or the provision of goods and services as specified in this section shall be in accordance with the provisions of School Board Policy 6Gx53.4.020. Sponsor will provide the calculation method and support documentation. Pursuant to provisions of 20 U.S.C. 8061 s. 10306, the School shall receive all federal funding for which the School is otherwise eligible, including Title I funding, not later than five (5) months after the School enrolls students for the start of the new school year. The School may participate in discretionary IDEA training offered by the Sponsor at no cost.

a) Title I: Any Title I funds allocated to the School must be used to supplement students greatest instructional needs that have been identified by a comprehensive needs assessment of the entire School and shall be spent in accordance with federal regulations.

1) The School's eligibility to receive Title I funds will be based on the percentage of students participating in the Free or Reduced Price Lunch Program as determined by an Economic Survey using a cut-off level established by the Sponsor.

-
- 2) If the School does not participate in the Free or Reduced Price Lunch Program, the School must use the same measure of poverty for identifying eligible students ages five (5) to 17, including
- a. Children eligible for free or reduced price lunches, according to the income eligibility guidelines (IEG) established for the Sponsor's identification of eligible children
 - b. Children in households receiving assistance under the State program funded under Title IV-A of the Social Security Act (Temporary Assistance for Needy Families)

The School will be responsible for providing documentation to support the identification of an eligible student. Documentation will be submitted to the Sponsor's Title I Office for verification. Documented eligible students will be counted for the School's percentage of poverty for the current economic survey. For a new or expanding charter school, the documentation must be submitted during October or February FTE survey weeks, whichever is closer to the School's opening date, for the current school year's allocation. For existing charter schools, the documentation will be submitted during the February survey week for allocations the following school year.

3) The per pupil allocation of Title I funds will be determined annually in accordance with the economic survey conducted by the Sponsor for that purpose. The allocation of Title I Funds shall be made in accordance with the Public Charter Extension Act of 1998 and all corresponding guidance and regulations.

4) Any capital outlay item purchased with Title I funds costing \$250 or more, which is classified as Audio Visual, Software, Furniture or Equipment remains the property of Title I. This property must be identified and labeled for Title I property audits.

5) Schools receiving Title I funds will employ highly qualified staff: teachers that are certified and teaching infield; paraeducators with two years of college or that have passed an equivalent exam.

6) If the School accepts Title I funds, at least one percent of the Title I funds budget must be spent in support of parental involvement activities.

7) Charter schools receiving Title I funds are subject to all terms and conditions pertaining thereto, including the requirement to make Adequate Yearly Progress.

8) The district and regional Title I staff will provide technical assistance and support in order to ensure that Title I guidelines are being followed at the School and that students are meeting high content and performance standards.

9) The School will comply with all applicable requirements of the Florida Differentiated Accountability Model.

b) IDEA: Funding for services provided to students with disabilities in the School will be provided in the same manner as for the Sponsor's other public schools.

1) When the funding source requires that the Sponsor serve as the fiscal agent for a grant, the School shall, prior to generating any paperwork to the funding agency, notify the Sponsor in writing of its intent to submit a grant application and attach grant application guidelines.

2) If the Sponsor develops a districtwide grant, the School may be included in the district proposal, if mutually agreed to by the School and the Sponsor. The Sponsor shall not agree to such participation unless the School specifically agrees to all terms, conditions, and requirements of the grant. If the School fails in any material respect to comply with said terms, conditions, and requirements, the School shall be solely responsible and liable for any consequences.

3) When a charter school elects to participate in a districtwide grant prepared by the Sponsor's staff or when grant proposals are developed by district staff using student or School counts that include the students of the School, dollars and/or services distributed via grant funds will be provided to charter schools in the same manner as traditional public schools.

d) Other federal/state funds: Unless otherwise provided in this Contract, if the School's students, programs, staff and/or facilities are used to generate funds for the Sponsor, the Sponsor agrees to give the School its proportionate share of federal and/or state funds generated. This includes any changes in law creating new categories of funds.

3) Charter School Capital Outlay Funds: The Sponsor will cooperate and assist the School, as required by Florida Statutes, to obtain capital outlay funding for which the School may be eligible.

a) Application: The School agrees to use procedures for submitting and approving requests for funding under §1013.62, Florida Statute, Charter Schools Capital Outlay Funding which are attached to this Contract as **Appendix 11**.

b) Distribution: The Sponsor shall make timely and efficient capital outlay payment to the School upon receipt of all required supporting documentation. The Sponsor shall not certify capital outlay plans if it cannot attest to the School's eligibility.

5) If the School has a population of 251 or more students, the difference between the total administrative fee calculation and the amount of the administrative fee withheld may be used for capital outlay purposes specified in §1013.62(2), Florida Statute. The Sponsor shall not withhold an administrative fee from capital outlay funds unless explicitly authorized by Florida law.

6) In addition, a sponsor may withhold only up to a 5-percent administrative fee for enrollment up to and including 500 students within a system of charter schools which meets all of the following:

b) Has all schools located in the same county;
c) Has a total enrollment exceeding the total enrollment of at least one school district in the state;

d) Has the same governing board; and

e) Does not contract with a for-profit service provider for management of school operations. The 5% administrative fee shall be deducted from the monthly FTE invoices

rather than all at one time. Sponsor shall not charge School any additional fees or surcharges for administrative and educational services in addition to the 5% administrative fee withheld above.

6) The Sponsor shall provide certain services to the School at no additional fee. The services shall include contract management services, FTE and data reporting, exceptional student education administration, test administration services, including payment of the costs of state-required or district-required student assessments, processing of teacher certificate data, and information services, including equal access to student information systems that are used by public schools in the district in which the School is located. 8) If goods and services are made available to School they shall be provided to School at a rate no greater than the Sponsor's actual cost, unless otherwise agreed.

9) The Sponsor will charge the School for additional services that are beyond the scope of the services described above provided the parties mutually agree in writing that the School shall be charged for such additional services prior to the rendering of such services. Payment shall be made to Sponsor within thirty (30) calendar days upon submission of invoices to the School.

b) The School shall immediately keep updated all student information on the District's student information systems (Genesis) to enable the District to determine the grades, home address, accommodations (if any), and types of assessments to be taken by the School's students.

c) The School is ultimately responsible for identifying the types of assessments each student takes and any accommodations. The School shall timely notify its students and student's parents of this information.

2) Facility

a) The School shall bear all costs and provide its own facility for its students to take State-required assessments as stated below. Alternatively, the School will have access to a District facility for taking these assessments as stated below. The School shall notify the Sponsor as to which option it will exercise no later than the beginning of each school year.

b) The School shall bear all costs and provide its own facility for its students to take District-required assessments if a site is needed, such as for pencil and paper testing.

c) If School Uses its own Facilities

1) The site of all facilities for testing must be in compliance with all State and Federal requirements including, but not limited to, all building and fire protection codes and zoning requirements.

2) The School shall notify the Sponsor of each facility's street address no later than sixty (60) days before the use of any such facility. The School will provide the

Sponsor with a list of all sites for State-required and District-required assessments no later than sixty (60) days prior to the date of each such event.

3) **Deadline to Secure Facility:** The School shall provide the Sponsor with documentation regarding the School's property interest (owner or lessee) in the property and facility where the School will administer State- and District-required assessments. The School shall provide a deed or a fully executed lease of all facilities at least sixty (60) calendar days before the date of the first assessments. The leasing or rental term shall be for at least the term of the testing window and pre-testing requirements of the State for the assessments that will be required to be administered for its students.

4) **Right to Inspect:** The School will allow the School Board to inspect the facilities at reasonable times to ensure compliance with all applicable requirements and contractual obligations. The School Board has no obligation, however, to inspect.

6) **Deadline to Meet Testing Requirements:** At the facility, the School must timely ensure that it is prepared to meet FLDOE State-mandated computer-based testing requirements (i.e. computer setup, software installations, network bandwidth, and any other requirements). The School shall bear all costs associated with the provision of an appropriate facility and environment for testing; including, but not limited to, the facility being properly equipped with the technology to administer secure online assessments and obtaining the required certifications from FLDOE for such facility and technology infrastructure.

7) Any lack of compliance with the requirements of this Section, throughout the term of the Contract, shall be considered a material breach and good cause for termination of this Contract.

d) **If District Facilities are Used**

Stat. § 1002.45 (6) (b), if the School exercises this option, the Sponsor will provide the School's students with access to its testing facility(ies) for taking State-required assessment tests. The Sponsor, in its sole discretion, will determine the facility(ies) available to the School's students to take these tests and the hours and time of day the students will have access within the timeframes established by the State. The School will be responsible to pay the Sponsor the reasonable costs: including, but not limited to, labor and utilities for providing the facility and technology.

3) **Transportation**

a) The School shall provide transportation at its own cost to the School's students for taking State- and District-required assessments consistent with the requirements of Part I. E. of Chapter 1006, F.S. and Federal law. Any brochure, flyers, or other multi-media

and telecommunications information furnished/published by the School shall communicate that the School will provide transportation for this purpose and the manner in which it will be made available to the School's students. The School acknowledges that the McKinney Vento Homeless Assistance Act (42 U.S.C. The School shall provide transportation for students with disabilities enrolled in the School if required by the student's IEP or 504 Plan.

c) The School may provide transportation through an agreement or contract with the Sponsor, a private provider or parents. The School may contract with a Sponsor-approved private transportation firm. If using an approved private firm, the School must submit to the Sponsor the firm's name and a copy of the final transportation plan and contract and the proper documentation that the private provider has and will comply with all applicable Federal, State and Sponsor vehicle inspection and all bus driver certification requirements. This information must be submitted by the School to the Sponsor at least ten (10) working days prior to the date of the first State- or District-required assessment, whichever is earlier. The School will provide the Sponsor, via the Transportation Department, an updated list each quarter of all School bus drivers providing commercial driver's license numbers, current license status and license expiration dates.

d) If transportation is contracted with the Sponsor, the Sponsor reserves the right to set the arrival and departure times for students as well as the fees for the costs to transport the students and the Sponsor will deduct the appropriate amount from the school's FTE payment, if any, without penalty of interest, although the School may request and the parties agree to a payment plan. If the School does not make timely payments, the Sponsor may terminate that contract and no longer provide transportation services.

e) The School and those under contract with the School to provide transportation shall at all times comply with all applicable federal, state, and local laws and regulations governing transportation safety requirements.

f) The School may not charge a fee for transportation to which the student is entitled pursuant to State law. The School shall reimburse parents for parent-provided transportation costs if the student is legally entitled to transportation. The rate of reimbursement to the School will be equivalent to any reimbursement rate provided by the State for these students.

g) The School shall timely notify its students and student's parents of the facility where the student's test will be administered, the time and date, and any transportation arrangements.
