## **INSTRUCTIONS TO SUBMITTING FIRMS**

The intent of this Request for Qualifications (RFQ) is to secure Construction Manager at Risk Services to renovate and remodel an existing, fully operational Science Building on the Winter Haven Campus of Polk State College. The Winter Haven Science Building (WSC, Building #3) is a two story, 51,000 square foot building housing the College's Science and Nursing Program classrooms, laboratories, and academic support spaces that accommodate the related academic need of those programs. The scope of this renovation and remodel is to reconfigure all existing support spaces programs and to better align spaces for operational and instructional efficiencies. All building infrastructure and systems will also be renovated/replaced as they are beyond their useful life. It is anticipated that with this project completed, students and instructors will be able to make use of a modern, state-of-the-art teaching and learning environment. Further, this project will be designed to Green Globes or equivalent standards to assist in resource conservation and to reduce the operational expenses of the building.

The building is a fully occupied and functioning building and is on an active College campus. To the extent possible, disruption of classes and activities will be kept to a minimum. However, temporary relocation may be necessary at the direction of the College's leadership. The full extent to which these spaces are remodeled and/or renovated will be discussed and options agreed upon during the programming effort.

The total estimated budget for the project is \$16,689,627.

## **SELECTION PROCESS**

### **Short-List**

The written Proposals received in response to this Request for Qualifications (RFQ) will be evaluated and ranked by the Evaluation Team, comprised of not less than five voting members in accordance with the process and

evaluation criteria and utilizing the attached Ranking Sheet. Various (non-competing) Professional Consultants and representatives from Polk State College Procurement Services Department may also be present during this process as non-voting members of the Committee. A ranking shall be established by totaling the sum of the scores given to each Proposer by all voting members of the Evaluation Team. The Committee has the option to select (short-list) and/or award a minimum of two Proposer's who may give a presentation at a later date to the E-Team.

No information will be released by Polk State College after the due date for submission of the Proposals until the selection of the short-listed firms has been made. All submitting firms will receive notification of the Proposer's selected. The ranking established for short-listing will carry forward to the next portion of the process. In accordance with the CCNA, Polk State College reserves the right to conduct or not conduct interviews, at its sole discretion.

Non-Responsive proposals will be rejected by the Procurement Services Department and will not be distributed to the E-Team for consideration. Additionally, the E-Team may determine that one or more required submittals/documentation are so inadequate as to be determined to be non-responsive. A proposal may be non-responsive due to:

1. Late submission.
2. Proposer does not meet minimum requirements.
3. Failure to follow the required format listed.
4. Failure to sign the proposal.
5. Failure to acknowledge addenda (unless all changes are not materiel, ex: extending the due date).
6. Failure to provide required submittals / documentation.
7. Failure to register as a prospective submitting firm.

The list of short-listed Proposers will be posted on the dedicated Webpage and the ITB/RFQ bulletin board in the Procurement Services Department.

The short-listed Proposers will be notified, as follows:

1. A letter will be sent to those firms who have been short-listed, notifying them of the place and time of their interview/presentation.
2. Specific questions/clarifications that the E-Team would like for all Proposers to address will be included in this notification.
3. Should the Evaluation Criteria for the Oral Presentations be changed, the revisions will be included in the letter.

### Oral Presentation/Interview

Scores from the written evaluation will not be brought forward to the oral presentation / interview. Only preference of position in interview order will be advantaged by short-listed ranking.

Oral presentations are tentatively scheduled for the date listed in Appendix A. Proposers should plan on 45 minutes for introductions and presentations and 15 minutes for questions and discussion. The Evaluation Team would like those individuals who will be directly involved in the project to attend the presentation/interview. It is requested that the Proposers not prepare large presentation boards. PowerPoint presentations, 8 1/2" x 11" handouts are permissible. The E-Team will evaluate and rank the Proposer based on the qualification submittals and oral presentations in accordance with the process and evaluation criteria. A ranking shall

be established by totaling the sum of the scores given to each Proposer by all voting members of the E-Team for the Oral Presentation/Interview.

The Oral Presentations are exempt from the Sunshine Law, FS 286.011, and therefore, are not open to the public. However, they will be recorded and made available for review.

### Identical or Tie Scores

In the event two or more Proposers are deemed equal during the evaluation process, the following criteria, in order of importance, shall be used to break said tie:

1. Drug Free Workplace (Appendix D)
2. Flip of a coin.

### Evaluation Criteria Rating Sheets

The Selection Committee will evaluate the Proposals received in response to this Request for Qualifications (RFQ) based on the Evaluation Criteria included in this document. The Evaluation Team will utilize the attached Evaluation Rating Sheets for both the Short Listing and Oral Presentation/Interview portions of the process.

### Recommendation

The Evaluation Team will recommend to the College President and, upon her approval, then to the District Board of Trustees of Polk State College that an Agreement for Construction Management at Risk Services be negotiated with a minimum of two Proposers with the highest total points (the sum of the scores given to each firm by all voting members of the Selection Committee) in accordance with CCNA provisions.

The recommendation for ranking that moves to the District Board of Trustees will be posted for review by interested parties at the Procurement Services Department and on the dedicated webpage prior to submission to the District Board of Trustees for final acceptance of ranking.

The recommendation will remain posted to the dedicated webpage and the ITB/RFQ bulletin board in the Procurement Services Department for a period of at least three working days.

### Negotiation and Award

Polk State anticipates award to the highest ranked Proposer, judged by Polk State to be the most advantageous. Final approval of the ranking of Proposer(s) shall be by Polk State's District Board of Trustees at a regularly scheduled public meeting.

The RFQ and ranking process does not constitute an offer, agreement, or a contract with the Proposer. Once the ranking is approved, negotiations will commence with the top-ranked firm. Failure to complete negotiations with the firm ranked first will result in negotiations with the firm ranked second, and so on.

The Contract will become binding upon approval by the appropriate level of authority within Polk State College and executed by the parties.

The process will be in accordance with FS 287.055, the Consultants' Competitive Negotiation Act (CCNA).
