September 2015

After interviewing multiple high school colligate students at Polk State, my partner and I learned to not be surprised if their answer isn't on the Top 10 Most Popular Sports in the World Chart when asking what their favorite sport is. Throughout the interviews only two of the four favorite sport answers were actually on the Top 10 list. Also while doing these interviews we realized that all of the students said injuries were the worst parts of their favorite sports.

Sam McGuire explained that football is his favorite sport because he enjoys watching and playing football. His favorite aspect about football is the excitement that comes with winning but he dislikes how easy it is to get injured.

Hunter Schaberg chose archery as his favorite sport because it is one of his favorite hobbies. He says that the best part about archery is whenever you get an arrow inside an arrow. In his opinion the worst part is that they should have different bows and arrows.

Jessica Guerrier said that her favorite sport is basketball because she enjoys to watch it and her friends play. In Jessica's opinion the best aspect of basketball is the intensity and the worst is how there are only a few star players per team.

Lauren Passino's favorite sport/hobby is pole vaulting, she says that it is a difficult sport to do that comes with lots of injuries. She enjoys this sport because it is an individual sport instead of a team sport, she says she wouldn't change anything about the sport if she had the chance.
