Meta-Majors: Pathways to Success

A meta-major is:
An academic pathway for programs and degrees with similar General Education requirements that lead to similar careers.

Benefit of a meta-major:
Provides students a group of General Education courses to take until they choose a major. Once a major is chosen, students follow the degree plan for the major.

Select a meta-major:
- After Orientation, tell the advisor which meta-major interests you most.
- Take the recommended courses.
- Attend a Career Discovery workshop.
- Select a transfer major as soon as you can.

The eight meta-majors are:
- Arts, humanities, communication and design
- Business
- Education
- Health sciences
- Industry/manufacturing and construction
- Public safety
- Science, technology, engineering, and mathematics
- Social and behavioral sciences and human services
